

## Stat 4630 Project:

A real time series, of length 40, should be used for the analysis.

A one-page proposal outlining the scientific questions to be addressed and the relevant techniques to be employed, with a separate listing of the data, has to be handed in during class on April 22. The final written report should be typed and include a one-page non-technical summary of the findings, followed by the background of the scientific questions, the body of technical analyses with interpretations, a conclusion and the listing of the data. Including graphics, the report ordinarily should not exceed 15 pages in length. Typed report has to be handed in by the time of presentation (last class day, April 27th).
